Electrical World

Volume CXX—July to December, 1943

McGRAW-HILL PUBLISHING COMPANY, INC. • 330 West 42nd Street, New York City

SUGGESTIONS FOR USE OF INDEX

Articles in this index are arranged alphabetically according to subjects. This is not an index of titles. Each article is indexed under the general subject which the article treats. For example, if the article deals with generator testing it will be indexed under *tests*, if it treats industrial wiring it will be indexed under *wiring*, etc.

Feature length articles and major news items have been cross-referenced to facilitate location of articles without extended search.

The following material has not been indexed:
Personal items.
New Equipment.
Book Reviews.
Rate Changes.
Minor Financial News.
Minor Manufacturing and Market News.

Related articles have been grouped under such headings as:

Appliances — All articles dealing with ranges, water heaters, ironers, etc., are indexed under appliances, rather than under the type of appliance discussed.

Associations, Societies and Governmental Agencies— Major News items and articles relating to this group are indexed under the individual organization name.

Court Decisions and Suits — Major items are indexed under the name of the company involved.

Public Utilities — Articles dealing with individual power companies, and with their related activities are indexed alphabetically under the company name and *not*, as formerly, under the heading Public Utilities.

Rural Electrification — All articles dealing with various phases of supplying service to rural areas are indexed under this subject head.

Statistics — All articles dealing with any type of statistics are indexed under Statistics, regardless of the general subject class that the article falls under.

Steam Stations and Developments, Hydro Plants and Developments — Articles about generating stations are listed under one or the other of these heads, according to the type of station.

Following the main index is an index of authors of signed articles. In this index the exact title is listed.

GENERAL ALPHABETICAL INDEX

PAGES BY ISSUES

1– 68	July	3
69– 152	July	10
153– 200	July	17
201– 380	July	24
381– 494	July	31
495– 550	August	7
551– 574	August	14
575– 720	August	21
721– 744	August	28
745– 900	September	4
901– 924	September	11

2169–2312	December	25

A

Accidents:
Drive on off-job accidents (N) 385
Graphic analysis of accident record..1209
Routine inspections to eliminate accident hazards 1687

Accounting:
Virginia Public Service and Wheeling Electric accounting adjustments approved (N) 1266

Advertising:
Central Hudson Gas & Electric promotes service area as vacationland.1402
Electric utility national advertising program will be two years old (Ed).1863
Old irons brought in for repair through ads 1558
United Illuminating of New Haven compares advertising and employee relations with other companies....2090
Utilities see farmers vital to war program *512
Utility helps the harvests.....*870
WPB to run advertising campaign (N) 91

American Institute of Electrical Engineers:
Cleveland meeting (N)..... 4
Report of Cleveland meeting..... *80
Salt Lake City meeting (N)..... 906

American Society of Agricultural Engineers:
Rural Electric Division meeting (N) *2151

American Society of Mechanical Engineers:
New York meeting (N).....*2048

American Society of Mechanical Engineers and Engineering Institute of Canada plan joint meetings (N)...2052
New York meeting (N).....1945

Anchorage Light & Power (N)..... 4
Appalachian Electric Power (N).....1951
Apparatus failure causes analyzed in order to control trouble. E. W. Whitmer *990

Appliances:
Advertising brings in the irons for repair 1558
Boston Edison's system for appliance maintenance. H. T. Simpson *2290
Census Bureau consumer goods survey under way (N).....1700
Chicago dealers focus on repair. J. N. Walton 680
Chicago launches a swap campaign..1905
Civilian durable goods maybe yes, maybe no. R. N. Larkin..... 470
Customer service plan, Georgia Power. W. B. Farnsworth..... 680
Customer service report, Georgia Power 1558
Dehydrators see Dehydration
Draft deferment of appliance repairmen *820
Duluth utility lends pressure canners. R. F. Pulver.....*2293
Farm appliance repair clinic. M. H. Lloyd *1048
National Appliance Conservation Program planned for January (N)....1868
New York adopts idle appliance resale plan (N) 473
Office of Civilian Requirements survey denies appliance materials (N) 386
Ranges—manufacture in areas where labor is available will be the ones allowed to produce (N).....2050
Ranges—material for gas ranges but not for electric (Ed).....1001
Range program to be plugged by N.E.M.A. (N) 557
Refrigeration school (N).....*2152
Refrigerators—230,000 domestic iceboxes authorized (N).....1356
Repair clinics are valuable. J. E. Briggs *864
Repair parts survey being made by E.E.I. (N) 7
Restricted production of replacement parts authorized by WPB (N)..... 476
St. Louis helps the specialty dealer.. 866
St. Louis home service canvass gives customer service advice.....*998
St. Louis women share pressure cookers 684
"Swap campaign" sponsored by E.E.I. (N) *1449
"Swap" plan uncovers idle appliances, Pittsburgh. T. O. McQuiston.....*2086
Trading post plan of Pacific Gas & Electric not successful.....1737
Water heater control releases peak kw. J. G. Glassco.....*256

Argentina:
Reduces rates of U. S. utility (N)....1091

Arkansas Power & Light (N) 265; (N) 829; (N) 905; (N).....1867

Arkansas Power & Light leases Citizens Electric Co. (N).....1095

Arkansas Valley Electric (N)..... 266

Arizona General Utilities (N)..... 266

Ash disposal done on continuous basis, Evansville, Ind. *2260

Associated Gas & Electric reorganization plan approved (N).....1950

Associations—industry organization (Ed).2027

Awards:
John Wesley Hyatt award presented to Frank H. Shaw (N) *91
Office of Civilian Defense awards open to utility companies (N).....1184
Josephine Snapp award to go to Mrs. Julia Kiene (N)..... *6

B

Battery:
Battery stabilizer excitation system. C. O. von Dannenburg.....1212
Battery used in starting exciters. H. W. Yeaton *323

Bearings—fixture for loading ball bearings into wheel assemblies.....*653

Blackouts:
Dimout report shows increased accidents (Ed) 1694; (N).....1702
Dimout restrictions on West Coast eased (N) 1354; canceled (N).....1523
Pacific Coast utilities honored for dimout aid (N).....*186
U. S. Regional Director blackout unit aided by illuminating engineers (N) 1093
Utility repair lighting permitted during blackout (N).....1528

Blackstone Valley Gas & Electric (N)....1593

Boston Edison (N) 389; (N) 724; (N) 834; (N) *1699

British Columbia:
Experts to report rural electrification (N) 2154
Thirty day free service (N).....1948
To get stream gauging stations (N)..1447
Two months free service (N)..... .1867

(Ed) Editorial. * Illustrated. (N) News.

Buses and Busbars:
Fault bus protection by relaying. I. C. Eppley *633
Interfering buses skillfully joined....*671
Linear couplers used for bus protection. W. K. Sonnemann.....*110
Welded wrought iron pipe for high-voltage buses. J. A. Gerber.....*988
Bushings—Preventive maintenance protects apparatus bushings. L. M. Limpus *1688
Better cement for bushing repairs....2215

C

Cables:
Cable sheath breaks repaired in duct. T. G. Hieronymus..... 324
Do's and don'ts of lead burning. T. G. Hieronymus *1188
How to determine thermal storage factor of cable. L. G. McDowell.....*2280
How to install a single-conductor pothead *340
How to train and rack cables in manholes *2074
Impregnated paper for submarine cable. R. J. Wiseman.....*1348
Installation, splicing of aerial-messenger cable. Fort & Carver.....*454
Low-pressure, gas-filled cables go on 34.5 duty. Winje & Schonefeld....*1158
New wire and cable from surplus inventories resold under new regulation (N) 646
One gas-filled cable instead of two "solid." F. W. Smith *1682
Paper beats steel for conduit joint rings 2080
Pothead fundamentals. C. W. Sward.*494
Potheads operated without shells. E. H. Grosser *2283
Prices for wire and cable may be adjusted (N) 476
Special torch tip for lead burning cables *676
System of four cables with one as a spare laid in Buenos Aires. P. L. Dellis *856
Tabulation for checking wiring drawings. E. R. Bonds..... 672
Waterproof tarpaulin applied to cable joints *1038
Calculating board—alternating current calculating board saves critical materials. C. F. Wagner.....*460
California Electric Power Co. (N).....1592
California Oregon Power (N)..... 904

Canada:
DeCew station, Ontario, opened (N).1446
Energy output rises (N)..... 907
Montreal Light, Heat & Power (N)..1092
Montreal Light, Heat & Power Cons. to be nationalized (N) 1355; (N)..1445
Ontario hydro expands for war (N).. 180
Port Arthur-Steep Rock Iron Mine line in operation (N).....2050
Potential power resources estimated (N) 1868
Power expansion (N)..... 555
Quebec Gaspe Peninsula to be electrified after the war (N)..... 904
Seizures of power companies threatened (N) 1590
Shipshaw developed to 800,000 hp (N) 1951
Shipshaw power development investigation to be broadened (N) 6; (N) 96; (N) 1444
Toronto rate reduction asked (N)... 909

Capacitors:
Calculations for capacitor coupling circuits. J. H. Vivian.....*2036
Experience with series capacitors. B. L. McArdle 2268
How to connect pole-mounted capacitors. E. H. Kendall.....*1715
Series capacitor drops welder demand. B. L. McArdle.....*2056
Series capacitors—where place? how big? S. Lubin, pt. 7, 124; pt. 8, 346; pt. 9..... 500
Wartime capacitor rack for poles..*2269
Wood rack replaces steel for pole mounting of capacitors. E. H. Kendall *1368
Wood racks for pole-mounted capacitors—construction. E. H. Kendall.*1648
Carrier current see Controls
Cathode-ray tubes—Cyclograph tests, sorts metallurgically *1888
Central Hudson Gas & Electric promotes service area as vacationland.....1402
Central Illinois Light (N)..... 728
Chemical Show opens (N).....2052
Chile:
Plan for vast electrification (N).....1528

Circuit Breakers:
How to close, trip, circuit breakers. G. J. Easley, pt. 1, *488; pt. 2, *674; pt. 3, *840; pt. 4, 1028; pt. 5, *1188; pt. 6, *1388; pt. 7, *1550; pt. 8, *1724; pt. 9, *1896; pt. 10, *2076; pt. 11 .....*2283
Old oil breaker modernized to take double duty (N)..... *96
One relay recloses several breakers. H. A. P. Langstaff.....*1384
Cleveland Electric Illuminating Co. (N)..1004
Finds new friends in municipal ownership fight 251
Clock, synchronous, battery-operated....*2056

Coal:
Anthracite barley and bituminous slack coal burns efficiently (N).....2149
Bituminous coal priority system delayed by strike (N).....1587
Bucket conveyor handles coal.....1550
Coal storage reversal (Ed).....1000
Consumption gains while supply slumps (N) 2149
Conveyor carriage distributes coal on pile *482
Diversion of coal affects utilities (N). 726
Downspout for diversion.....*664
ICC freezes all coal in rail transit (N) 1594
Iron, steel men get coal priority (N). 831
OCR loses jurisdiction over civilian coal, oil (N)..... 389
OPA increases soft coal ceiling prices (N) 2051
Pittsburgh utilities' coal diverted to steel companies (N)..... 388
Problems of conversion to coal. H. S. Knowlton *626
Pulverized coal clogging pipes stopped by larger inlet.....*2064
Shipments cut for energy production (N) 1006
Solid Fuels Administration discards 60-day coal operating-base (N)....1697
Solid Fuels Administration drafting purchase priority system (N).....1525
Solid Fuels Administration to issue detailed coal priorities order (N)..1785
Special device for coal sampling....*1394
Stockpiles rise (N).. 1448
Utility fuel supply for winter assured. R. N. Larkin.....1176
Columbia Gas & Electric (N).....1785
Columbus & Southern Ohio Electric power failure (N) 1265
Commission engineers hold meeting (N).. 390
Commonwealth Edison (N) 2153.....2225
Conduits—Paper beats steel for conduit joint rings 2080

Conductors:
Ampere capacity for copper bars, rods and tubing. R. C. Fink (table)..... 492
Conductor sizes for distribution secondaries. Philip Morrill (table)..1210
Saddle tap stops strand breaks.....*850
Connecticut Light & Power (N)..... 904
Connectors—Hot-line tool installs connectors. J. W. Sample.....*482

Conservation of Power:
Dimouts on coast canceled; conservation continued (N).....1523
Drive for conservation (N) 553; (Ed) 807; (N) *1091; (N) 1184; (N) 1261; (Ed) 1350; (N).....1350
Drive for conservation starts.....1007
Keeping up with conservation..... 1786; 1870; 1946
OWU amends conservation plan to allow display lighting (N).....2051
Office of War Utilities endorses power conservation drive (N) 263; (N) 385; (N) 648
Program for conservation is pushed by power companies.....*1339
St. Louis sets pattern for implementing Limitation Order L-94...*1509
Seven industries plan conservation drive (N) 725
Voluntary conservation must go on (Ed) 1694
What, why, how of the conservation program 819
Consolidated Edison (N) 184
Construction—Waste in electrical construction in war plants. C. H. Shaw *995
Consumers Power Co. (N).....*904
Consumers Public Power District (N).... 557

Contracts:
Controllers Institute discusses contract termination plans (N).....1094
Legislation promised to speed settlement of claims (N)..... 266
Power renegotiation confusion. R. N. Larkin 1522
Renegotiation of contracts made savings for the Army (N).....1444
Controlled Materials Plan see Materials

Controls:
Alarm cutoff has automatic reset. W. M. Alcorn *2274
Carrier control of sectionalizing air-break switches. C. H. Faust.....*1504
Carrier-current controller for water heater. J. G. Glassco.....*256
Coal bunker conveyor control relayed for flexibility. A. H. Beiler.....*254
Cost of control wiring reduced by terminating circuits in cabinets. J. B. Stratford *1900
Electronic circuits actuate automatic combustion control. K. D. Knoblock *1168
Electronic drive serves drill press...*1018
Guide for inspection of photoelectric control 2071
How to correct trouble on photoelectric control. E. B. McDowell.....2270
How to maintain electronic control (chart). W. D. Cockrell.....1886
Lamps for control systems unobtainable (Ed) .....
Network supervisory system guides test and maintenance. J. L. Barker *2023
Frank R. Phillips Station's control boards. Brown, Hornert & Jones..*1334
Power factor control helps shovel voltage. D. Stoetzel.....*844
Three-pole contactor switches lighting circuits. E. R. Bonds.....*1027
Water system reservoir level controlled by electronic rectifier and voltage regulator. E. E. Norman, *635; correction 1077
Controls see also Electronics
Controllers Institute of America contract termination plans discussed (N) 1094
Cooking—electric:
Nutrition program makes friends for Gulf States Utilities. L. F. Riegel..1557
St. Louis women share pressure cookers 684
Copper:
WPB relaxes copper wire restrictions (N) 1450
WPB relaxes restrictions (N).....2225
Washer repair parts of copper allowed (N) 1448
Council of Electric Operating Companies Retailers to join conservation drive (N) 1184
Crane with special hooks handles forgings in heat-treating department.....*1212

D

Dehydration:
Dehydrating breather, filled with silica-gel, keeps transformer dry. L. M. Limpus.....*1706
E.E.I. reports on home dehydration (N) 184
Farm dehydrator. C. F. Ross..... 168
Home dehydrators to be manufactured by G.E..... 543
Southern California Edison makes research on dehydration.....1402
Detroit Edison (N) 384.....2226
Dim-outs see Lights & Lighting

Distribution Systems:
Arc furnace plant line extensions save copper. B. M. Jones.....*1678
Circuit planning data from a distribution engineer's notebook. C. N. Clark (tables) 660
Conductor sizes for distribution secondaries. Philip Morrill (table)...1210
Copper nails do not kill trees. E. D. Kennedy 1932
Distribution diagram aids dispatchers.2274
Economical transformer set-up for war housing development. L. H. Faulkingham *2206
Graph shows how to estimate loads for housing projects.....1894
How to clean up services to reduce short circuits *1030
How to connect pole-mounted capacitors. E. H. Kendall.....*1715
How to construct wood racks for pole-mounted capacitors. E. H. Kendall *1548
How to determine setting for feeder regulators (chart) 108
Load distribution on interconnections.*844
Network supervisory system guides test and maintenance. J. L. Barker *2028
Rearrangement of feeders frees circuit to supply war industry load..*1536
Single crossarm used for dead-ends..2064
Strain plate for service cable.....*1018
Wood substitutes for steel alley-arm braces *104

Ducts and Manholes:
Fibre ducts used in Canadian substation *462
How to train and rack cables in manholes *2074
Duke Power (N)..... 94
(N) 1592
Employees do own canning (N).....*1445
To purchase Durham properties (N)..2159

E

Eastern Shore Public Service (N).....1592
(N) 7
Applies for merger with Maryland Light & Power (N).....1263
Edison Electric Institute:
Accident prevention committee meets (N) 1358
Office of War Utilities' committee indorses power conservation drive (N) 648
Transmission and distribution session (N) 1446
Eels kept out of turbine by electric trap. H. C. Akins.....*1540
El Paso Electric (N).....1178
Electric Bond & Share (N).....1449
Electrical Credit Association meeting (N) 1952

Electrical World:
Apology for lateness (Ed)..... 261
Electronic Research Supply Agency established (N) 558

(Ed) Editorial. * Illustrated. (N) News.

Electronics:
Automatic combustion control actuated by electronic circuits. K. D. Knoblock *1168
Electron tube calibrates watt-hour meters. H. S. Bull.....*1846
Electron tube and how it functions. W. C. White..... 116
Electronic drive serves drill press...*1018
Guide for inspection of photoelectric control 2071
How to correct trouble on photoelectric control. E. B. McDowell.....2270
How to maintain electronic control (chart). W. D. Cockrell.....1896
Electronics see also Cathode-ray tubes

Employees:
Aptitude test bibliography..... 540
Council of Electric Operating Companies recommendations do not change WMC "essential" listing (N) 473
Critical utility jobs listed by WMC (N) 645; (N).....1008
Cutting industry's wages (Ed)..... 643
Draft deferment of appliance repairmen 820
Electricians loaned by Portland General Electric to steel plant (N)....*388
House throws out "war-work or fight" (N) 1593
Load dispatchers should visit plants. J. R. Castle.....1249
Manpower plan set-up for West Coast (N) 903
Manpower situation in electric industry to get attention. R. N. Larkin.1352
Motor repairmen are listed as critical (N) 1183
National service act coming? R. N. Larkin 826
Pennsylvania Power & Light's strike (Ed) 2218 (N).....2223
Selection of load dispatchers (Ed)..... 88
Strike notices withdrawn by UWOC (N) 905
Suggestion plan proves valuable to company and employee alike..... 632
United Illuminating of New Haven compares advertising and employee relations with other companies....2090
Utility employees as bond buyers (Ed) 469 892
Virginia Electric & Power asks new refund ruling (N)..... 558
Employees see also Women
Engineering—Independent criticism of engineering design. M. M. Samuels....1577
Engineers:
Definition of an electrical engineer. F. W. Shackelford..... 713
What is an electrical engineer? (Ed) 260
Engineers Public Service—U. S. Court of Appeals reverses SEC order on holdings (N) 1866

Equipment:
Apparatus failure causes analyzed in order to control trouble. E. W. Whitmer *990
Army revises regulations on surplus equipment 181
Commercial equipment bound to reflect aircraft design (Ed)..... 89
Power equipment gets new scheduling basis (N) 1178
Wanted and surplus equipment campaign 1226
WPB to redistribute idle machinery (N) 1178
Erie County Electric Co. (N)..... 7

F

Failures of electrical apparatus analyzed. E. W. Whitmer.....*990
Fan rotor for electrostatic precipitator repaired with end plates.....*1718
Federal Housing Authority above city codes, Court holds (N)..... 186

Federal Power Commission:
Annual statistical report issued (N).1792
"Cheap power" order rescinded by FPC (N) 1789
Reports, vol. II issued (N)..... 186
Finance:
Federal Power Commission's report shows strength of public utility industry (Ed) 1863
Stronger depreciation reserves needed (Ed) 1000

Fire Protection:
CO_2 test in Maine generating plant. A. A. Winters.....1374
Fog nozzle spray high-voltage leakage is tested for safety in fighting oil fires. Bass & Fehlenberg.....*1861

Fuel:
OCR loses jurisdiction over civilian coal, oil (N)..... 389
OPA acts to insure utility oil supply (N) 725
Portland Companies' oil-saving program (N) 1265
The post-war power plant. A. E. Knowlton 2229

Fuses:
Fuse-changing rack. B. J. Hungate..*324
High-voltage fuses used instead of circuit breakers for economy. B. D. Dexter *1014
Special design for high-tension fuse.*2072

G

Gage, pressure, and rubber bag used for sounding stream beds. J. A. Oldham *1364
General Electric sued by five manufacturers (N) 2050

Generators:
AA-3 ratings on generators (N).....1589
Automobile motor serves as small portable power plant for standby...*338
Battery used in starting exciters. H. W. Yeaton *323
Boosted bus voltage starts brush trouble *2287
Cleaning without "raising a dust"...*845
Commonwealth Edison places giant turbo-generator in service (N).....2225
Generator grounded through transformer primary; resistor in secondary. Marter & Johnson.....*2038
Job break-down plan used in Idaho Power for turbo generator overhaul. E. A. Woodhead (tables)..*2031
Meter chart shows spinning capacity and load on same chart. C. Wasserman *2208
Standby generator for war plant cooled by town water.....*1374
Germany:
Power industries of conquered countries seized (N).....1093
Gloves—Rubber gloves tested with d.c. equipment *496
Government ownership decried by Bond & Share head (N).....1449
Grain elevator for farm customers.....*1048
Great Britain:
Grid system proves great war aid. Paul Wooton 1357

Grounding:
D.c. on live a.c. bus to locate grounds. W. C. Noddings.....*500
Generator grounded through transformer primary; resistor in secdary. Marter & Johnson.....*2038
How to ground distribution equipment 486
Solder lugs superseded by tower ground wire clamps.....*1888
Water lance sinks ground rods 25 ft..*102
Welder circuit ground protection. B. L. McArdle *1714
Gulf Power Co. (N).....1091

H

Hartford Electric Light (N)..... 558
Heat exchangers added to transformer bank increases capacity. C. H. McAllister *1893
Heat exchanger, home built, cools reduction gear *1714

Heating—Electric:
Algae deposits on condenser tubes evaporated with unit heater.....1554
Brooder box for wartime use.....*136
Brooders save the pigs. Dennis McGuire *1396
Crane with special hooks handles forgings in heat-treating department *1212
Fire hose drying aided by electric heater *1049
High frequency heating service values 1742
Infra red lamps bake speedometer bezels *1905
Infra-red units push up denim output *134
Mold for vulcanizing synthetic covered wire splices is electrically heated. F. P. Reardon.....*1718
Welding transformer supplies heat for soldering large connectors.....*1209
Home planners seek utility aid.....1906
Home service:
St. Louis home service canvass gives customer service advice.....*998
Housing loads estimated by graph.....1894
Houston, Galeston hit in record hurricane (N) 471

Hydro-electric Plants and Developments:
Appalachia Dam begins operating (N) 1182
Arkansas-White River control bill introduced (N) 1788
Army ordnance plant power to firm up public hydro. R. N. Larkin.....1864
Bagnell Dam operation responsible for floods (N) 385
Bellows Falls hydro license authorized (N) 1702
Bonneville-Coulee (N) 729; (N).....1525
Bonneville Dam installs final unit (N) 2224
Bonneville Dam ninth unit turns (N).1007
Bonneville Dam's spillway gates closed (N) 1356
Brazos River power resale deal to be probed (N)..... 92
California Electric Power to sell facilities to Imperial Irrigation District (N) 1266
Colorado Authority bill may be revived (N) 726
Columbia River investigation (N) 6; (N) 1443
Connecticut Dam proposal will receive little support (N).....1592
Denison Dam control by three-man authority proposed as Red River Authority (N) 1263
Denison Dam, Grand River Dam and Norfork power distribution taken over by Interior Department (N)... 472
Eels kept out of turbine by electric trap. H. C. Akins.....*1540
Electrical governor for hydro-turbine.*2274
Flathead Dam bill (N).....1790
Fort Peck power goes to war plants (N) 184
Grand Coulee operating fourth generator (N) 554; seventh generator (N) 1788
Great Lakes-St. Lawrence waterways system's power potential increased by diversion (N).....1523
Hetch Hetchy injunction suspended for another year (N)..... 98
Holtwood project, Pa. receives license (N) 2054
Mr. Ickes and his plans and plots. R. N. Larkin..... 644
Jordan Dam land cost called "excessive" (N) 478
Kentucky Dam (N)..... 834
Lower Colorado River Authority versus city of San Antonio (N)....1871
Maintenance practices for penstocks and flow lines. J. M. Spaulding...*463
Menominee called navigable stream (N) 727
Missouri River Basis plan favored by Bureau of Reclamation (N).....1797
Montana Power cited on licenses of projects near Missouri River (N).. 557
Nebraska Hydro-Electric Power purchased by Consumers District (N).1703
Nisqually project's added cost okayed (N) 1005
Norfork Dam power control protested by North Kansas (N)..... 650
Office of War Utilities' 1945 power program (N) 265
Oregon City Falls dam being reconstructed (N) *95
Parker Dam installs fourth generator (N) 91
Passamaquoddy has gone to war (N) 904
Pipeline of wood stave repaired frequently *1693
Post Falls hydro station should have license (N) 94
Puget Sound Power & Light's Rock Island Dam ruling upheld (N).....1266
Ross Dam progress (N) 909; (N)....1268
